- 14:28:33 From Katrin : Hello, Solidarité Féminine, Djibouti
- 14:31:08 From Enrique Frontline AIDS : You are making a very strong point about stopping transition in LAC. Really, pushing it a bit further. Should we reconsider eligibility criteria again?. Shouldn't we just ditch the direct connection between country income and GF investments? This question keeps coming up, but COVID-19 has

had such an impact in so called middle-income countries, that we need to ask ourselves the question again.

- 14:32:30 From Indermohan Narula @ Mongolia : Agree with Enrique Frontline question. Should be seriously examined and responded to
- 14:33:37 From Linly Dumuka : Greetings everyone. I am Linly Dumuka, Malawian MW.

14:46:45 From Ida Savadogo : la delegation des ONGs est prêt à remonter les recommandations au conseil d'administration du FM

14:47:07 From Gemma Oberth : The recording and slides will be available

- 14:47:30 From CRouah : Ida's recommendation: Give more time to civil society and in particular to the youth to receive feedback from the field; Highlight community system funding, and; Support online engagement
- 14:48:30 From Shyamala Nataraj : would like to speak...unable to raise hand
- 14:48:41 From Developing Country NGOs The Global Fund : Please send to: L.Odendal@developingngo.org Anytime there is community and civil society evidence you want us to raise issues at the Board Level
- 14:49:31 From Gracia Violeta Ross Quiroga : One issue that is evident is, in times of crisis, accountability and participation of communities and civil society can be postponed temporarily or completely
- 14:50:42 From Gracia Violeta Ross Quiroga : In my presentation I didn't say we had a small support for advocacy, not from the Global Fund, but from UNAIDS
- 14:53:36 From Sundar Sundararaman Dr. : I hear that the C19 RM has not necessarily reached the most at risk people, even in India, 20 M was programmed for buying PPE....
- 14:54:11 From Amal El Karouaoui : Each country has its own surveillance system, through a new ITPC MENA program will launch a regional application in c to support this point. we have kept in touch with the communities to find out if they have access to their treatment through our social channels, webinar, Covid Alarm system, wathsap group ... the communities are committed to doing their best to achieve the treatment to their peers. they have traveled miles to support the arrival of treatment at destination. COVID-19 has shed light on capabilities and we must improve for a better response
- 14:55:57 From Plataforma LAC : - Covid-19 has highlighted the weakness of health systems and the fragility of the response to HIV, tuberculosis and malaria.
- 14:56:20 From Plataforma LAC : - Civil society organizations have played a key role in maintaining the response to HIV and tuberculosis; in most countries these actions are not financed by governments.
 - Civil society organizations quickly responded to the emergency situation, mobilizing food resources, housing income for people with HIV and populations in vulnerable situations (MSM, trans and sex workers).
 - In all countries, the first process was defined mainly from the PR and with negotiation with the Ministry of Health.
 - Active participation of civil society representations in the process of discussion of requests under the C19RM.

- 14:56:33 From Plataforma LAC : In all cases, the PRs rescheduled the suspended activities; however, it is anticipated that many of the rescheduled activities will have to be definitively canceled.
- Some actions were adapted to virtual formats, such as training sessions and outreach at meeting places.
 - Prevention actions were the most affected: interventions in meeting places, provision of condoms, testing and referral to services.
 - Challenges with international trade to access personal protective equipment.
- 14:56:54 From EANNASO : Dear all, please find the link below on Harnessing the Power of Technology for Health Solutions During COVID-19 and Beyond. A digital initiative known as C-Tracker to enable better tracking of COVID-19 cases to inform prompt action developed by EANNASO in partnership with Zoolohj International and Dure Technologies. The C-Tracker was integrated in the C19RM Global Fund grant for South Africa. <https://eannaso.org/harnessing-the-power-of-technology-for-health-solutions-during-covid-19-and-beyond/>
- 14:57:06 From Plataforma LAC : Situation analysis of the response to HIV, TB and Malaria in the context of the COVID-19 epidemic in Latin America Countries with Grant from the GF
- 14:57:42 From RAME : Pour les francophones, prière se connecter ici <https://meet.google.com/rfu-jyqg-dae>
- 14:58:36 From SAIDOU : Bonjour chers participants. Following you from Niger.
- 14:59:05 From RAME : Pour les francophones, prière se connecter ici <https://meet.google.com/rfu-jyqg-dae>
- 14:59:38 From CRouah : Re involvement of civil society and key populations in-country dialogue in Nepal, Pakistan, Papua New Guinea, and Sri Lanka: https://apcaso.org/apcrg/wp-content/uploads/2020/07/APCASO-Health-Report_DRAFT-02.pdf
- 15:02:15 From RAME : Pour les francophones, prière se connecter ici <https://meet.google.com/rfu-jyqg-dae>
- 15:02:19 From Jorge Saavedra : My answer to the question if eligibility should be reviewed, I fully agree, if Covid19 is showing us something is that we need to re-think everything and therefore yes, stop transition, redesign the concept of sustainability and review eligibility criteria and un-link GNI per capita as the initial criteria to transition countries.

- 15:02:24 From Ida Savadogo : 2ème session: bons exemples sur l'engagement communautaire dans le contexte de la COVID19
- 15:03:09 From Ida Savadogo : PRésentation de la plateforme Afrique anglophone
- 15:03:37 From RD Marte : A response on the question on how far can we influence the GF to respond to issues of homeless people/other emerging issues. First, we have to be careful that while we demand from the GF responsiveness to emerging issue, it also does not cause mission creep - that it remains mindful and effective in responding as per its mandate. There would always be interlinkages between concerns like homelessness and key, vulnerable and marginalised communities in the context of HIV, TB, malaria. how responses should be crafted - what to include, who to consider vulnerable should be determined by countries and this is where support for community advocacy, community strengthening is needed to make sure that they are able to intervene at the country level in these processes. at the global level, there is also space for engagement and trying to influence - not always easy and of course not all battles are easily won - but there are three civil society delegations to the Board of the Global Fund, some members of which are with
- 15:03:42 From RD Marte : us in this webinar
- 15:04:57 From Ida Savadogo : domaines couverts: conséquences de la COVID: coupure des services de tb et palu. stigmatisation, perte de suivi des traitements
- 15:05:45 From RD Marte : Having said these, the issue of homelessness, foodlessness, socio-economic difficulties is very real - pandemic or no pandemic. The challenge is to make sure in socio-economic preparedness responses do not discriminate against the communities we work with - again this needs investment in CSS/community advocat
- 15:06:18 From Indermohan Narula @ Mongolia : How much leverage does the GF (given that GF is an INGO and does not have the authority of the UN agencies) have to deal with governments that are usurping the Global Fund resources allocated to the NGOs and CBOs in the name of security stating the reason that they are more effective in reallocating the GF resources for COVID and taking these away from the TB and HIV activities?
- 15:06:27 From Ida Savadogo : Reponses: augmentation des rencontres virtuelles avec les communautés, accent mis sur l'AT ciblé au cours de l'élaboration des subventions

15:07:07 From Rehema Elikana : Hello everyone, I have join session at late... Hope you will share a presentation with us through our email..... Rehema Elikana from SYoDeO (Strategic Youth Development Organization)

15:07:40 From Ida Savadogo : il ya également l'utilisation de l'audio-visuel pour sensibiliser les communautés

15:08:02 From Amal El Karouaoui : هناك أيضًا استخدام السمع البصري لتوعية المجتمعات

15:08:36 From CRouah : @Rehema: Yes presentations and recording will be shared with all participants

15:09:03 From Rehema Elikana : Thank you

15:09:58 From Ida Savadogo : bostwana est un exemple d'engagement virtuel au cours de la COVID qui a inclut les priorités communautaires ainsi que les droits humains, les directives sur la discrimination, la violence domestique. Ils ont mis en place un comité de réflexion sur la continuité des services dans le contexte de la COVID

15:11:25 From Ida Savadogo : Qu'est ce qui a changé: continuité des formations en ligne, continuité de l'engagement des groupes qui n'ont pas de représentants dans les CCM, contribution dans le mécanisme de riposte du FM (C19RM)

15:11:25 From saidou : Bonjour heureux de vous rejoindre. La société civile joue un role important en tant que membre de CCM, notamment en ce qui concerne l'accès aux services de soins et la prise en compte du genre. Mais avec la COVID 19, difficile de savoir ce que font les OSC. Concrètement, les taches traditionnelles ne suffisent et leurs actions sont restées les memes malgré la pandémie.

15:11:45 From Belly BOSSIKY To Gemma Oberth(privately) : Hi Gemma, great thanks for having organized this meeting. My name is Belly BOSSIKY from DR Congo. The problem that we know here is toward restriction of liberty mesures that will constitute a serous barriers toward delivery service of ARV toward Health sanitary Organisation.

15:11:51 From Sundar Sundararaman Dr. : indermohans question very real and important

15:11:59 From Amal El Karouaoui : شكرا

15:12:20 From CRouah : @Ida: Merci. Pouvez-vous nous en dire davantage ou nous envoyer plus d'infos sur les facteurs cles de succes au Botswana: Concretement, qu'est-ce qui a permis cet engagement effectif ?

15:12:27 From Florita Dalida : Good evening from the Philippines.

15:12:34 From Ida Savadogo : bonjour Saidou; la question que vous avez relevé est effectivement importante

15:12:44 From EHRA : Лидерство гражданского общества и координация виртуальных технических групп во время подготовки запроса на финансирование в рамках "Окна 3" в России.

15:13:17 From Gemma Oberth To Belly BOSSIKY(privately) : Indeed a big challenge! Thank you for joining us

15:13:20 From Ida Savadogo : ok Rouah. je vais poser votre question en anglais

15:14:03 From Ida Savadogo : Question for Mlewa: to what is based the success of Bostwana?

15:14:07 From Belly BOSSIKY To Gemma Oberth(privately) : It will be difficult for patient to have an access associated with their medication. We think we are called to rethink to our different processes for being more competitive

15:14:21 From EHRA : Активный процесс национального диалога с гражданским обществом
Надзор за процессом разработки предложения и ответственность за его содержание.
Создана инициативная группа представителей гражданского общества для работы над концепцией и содержанием предложения.

15:14:22 From Ida Savadogo : give concrete exemples

15:14:29 From Gemma Oberth : Your question is noted, Ida.

15:14:45 From EHRA : Эксперты, нанятые по субподряду для оказания помощи в подготовке предложения, не смогли прибыть в страну из-за КОВИД-19. Очных встреч для обсуждения этого предложения не проводилось
В связи с блокировкой КОВИД люди работали из дома (активный период работы над содержанием предложения: апрель - август 2020 г.)

15:15:16 From EHRA : на слайде структура странового диалога

15:15:25 From DIALLOBOCAR : Hi. Bocar Diallo from Senegal

15:15:27 From Sundar Sundararaman Dr. : echo Ida.....

15:16:03 From Hamza Aliyu, : Hamza Aliyu Executive Director Initiative for Grassroot Advancement in Nigeria INGRA Lokoja Kogi State Nigeria

- 15:16:27 From EHRA : 350 участников диалога гражданского общества
- 15:17:07 From Niluka Perera : When this presentation is being done, it's quite frustrating to think of how the country dialogue and funding request development is done in Sri Lanka right now- no ccm proper engagement, tick box community consultation, no information provided on the process
- 15:17:10 From Ida Savadogo : Presentation de la plateforme Europe orientale et Asie centrale sur le leadership et la coordination de la SC dans les groupes virtuels au cours de l'élaboration des subventions HIV dans la fenetre 3 en Russie
- 15:17:13 From EHRA : также были вовлечены нац сети ключевых групп
- 15:17:29 From Indermohan Narula @ Mongolia To Gemma Oberth(private) : How much leverage does the GF (given that GF is an INGO and does not have the authority of the UN agencies) have to deal with governments that are usurping the Global Fund resources allocated to the NGOs and CBOs in the name of security stating the reason that they are more effective in reallocating the GF resources for COVID and taking these away from the TB and HIV activities?
- 15:17:48 From Gemma Oberth To Indermohan Narula @ Mongolia(private) : Your question is noted! Thank you
- 15:18:08 From Indermohan Narula @ Mongolia To Gemma Oberth(private) : Thank you dear and kind Gemma
- 15:18:09 From EHRA : что сработало
- 15:18:13 From EHRA : Многочисленные конференц-звонки членов Рабочей группы с ведущими экспертами и коллегами ЮНЭЙДС в Zoom и других онлайн-платформ (иногда длительностью 10 часов).
Периодические он-лайн информационные сессии для членов Странового диалога по различным аспектам процесса разработки заявок - прозрачность, инклюзивность, открытый процесс
Подотчетность членов Рабочей группы перед основными форумами по народонаселению - без нас ничего не происходит
Форум ТГ был создан с целью обеспечения того, чтобы потребности и интересы транссексуалов были должным образом учтены при разработке содержания предложения.
Поддержка работы Секретаря КС Региональной платформой ВЕЦА - ключевая роль в координации всего процесса
- 15:18:36 From Sundar Sundararaman Dr. : Nikula.....it is indeed frustrating when civil society and community is tokenized

- 15:18:53 From Prince Mulumba M Ssuuna : Greetings from Uganda Kampala
- Prince Mulumba Mathias Ssuuna
Vice Chair EANNASO BOD
ED CEPARD GLOBAL
- 15:19:15 From Niluka Perera : Sundar> exactly
- 15:19:19 From Belly BOSSIKY : In DR Congo, with restriction of liberty measures, all delivery service toward ARV was impacted between January to March. As it has no vaccin officially for Cov-19, we are called to rethink to our process, to integrate more digital platform for doing thing effectively
- 15:19:52 From EHRA : выученные уроки - Благодаря ограничениям КОВИД удалось сэкономить финансирование (30000 UDS для совещаний), но не время. Общение в режиме онлайн может занять гораздо больше времени, если сравнивать с личными встречами.
Сложность работы в сети с иностранным специалистом, не говорящим на родном языке и не знающим контекста страны - очень трудоемкая и влияющая на качество процесса/содержания предложения
Эксперты гражданского общества являются основным ресурсом, готовым работать на общественных началах на благо общества.
При правильной мотивации всегда можно выполнять работу эффективно и одинаково качественно, даже при наличии меньшего количества ресурсов.
- 15:19:59 From Ida Savadogo : bonne remarque Belly
- 15:20:02 From Florita Dalida : One of the frequently encountered challenge of health workers in the management and treatment of drug-resistant TB among PLHIV is the conflict in the use of Bdq and Efavirenz. Not all HIV hub has available substitute for Efavirenz. I wish that GF could extend more budget for ARV that is compatible with Bedaquiline. Thank you.
- 15:21:24 From Amal El Karouaoui : Thank you dear Evan
- 15:21:58 From Omar Kora : for a from the Gambia
- 15:23:21 From Charles MUKANDA : La prise en charge PSYCHOSOCIALE en RDC des PATIENTS VIH est négligée par les procédures :les soins palliatifs liés aux VIH problématique : pas de service kynesetherapeute ;reincerssion socialePar rapport aux COVID19 les PVVIH de la RDC ne sont pas inclus dans aucun programme vue leurs Vulnérabilité au COVID-19

15:26:27 From AMADOU CISSE : Bonjour

15:26:43 From AMADOU CISSE : je n'entends rien.

15:27:32 From KOFFI N. BLAISE : Bonjour, pouvons-nous avoir la version française de cette présentation? Merc

15:27:47 From KOFFI N. BLAISE : Merci

15:29:34 From Deepanjali Sapkota : were these recommendations shared with respective CCMs?

15:29:45 From Amal El Karouaoui : Merci Ida

15:31:05 From Belly BOSSIKY : in DR Congo most vulnerable population toward prevalence rate is Adolescent Young Women, the big challenge, they can be targeted with digital platform, this pandemic are calling all of us, to rethink processes and activities

15:31:17 From MICK MATTHEWS : I am interested to hear from RAME who asked them to intervene in the way presented? Was it in response to a request from communities, a collective request from all communities, or was it an initiative from the Regional Platform?

15:31:20 From CRouah : @Koffi : Oui, nous pouvons traduire la presentation en francais

15:32:22 From SERGE DOUHAN : bsr ida pourrons-nous avoir la version francaise de votre presentd tion

15:44:00 From KOFFI N. BLAISE : 22579413868

15:44:03 From Amal El Karouaoui : the response to HIV has been severely affected by the onset of COVID. the word of the day should be how to stop this rain which reinforces the vulnerability of those who were already on the margins of society. We cannot continue to adapt without precise planning reorganization of the health systems which have been greatly affected by this pandemic. an institutional response should be taken into consideration
One of the participants mentioned the sex workers in the MENA Region, Fatima like Angela like liona like living the same thing in these new moments, No work, no income and a lot of stigma and marginalization. Sex workers in the MENA region suffer from this situation. Penalisation, stigma and marginalisation did not leave them before and even more and more so with COVID-19

15:44:19 From Sudeshwar Singh : Well-done Shyamal je

15:47:48 From TECNO SPARK 5 Air To Gemma Oberth(privately) : cette table devrait être dans plusieurs langues pour que tout le monde y participe mais elle n'est qu'anglais c'est dommage pour nous

15:47:51 From Charles MUKANDA : Le représentant des bénéficiaires finaux ne sont pas inclus dans aucun groupe de travail 'ni Au bureau ni au suivi stratégique.il ne connais aucune clause de contrat qui lie le PR Aux SRs..Les TDR des activités ne sont pas valides en Assemblée générale de CCM !Il serait mieux de faire les activités qui touchent directement les victimes.les PVVIH sont capables de faire la prévention positive pour réduire les taux des nouveaux cas.Comment pouvez vous atteindre les objectifs fixés par l' ONUSIDA à 2023 ? sans l'implication des personnes vivant avec le VIH SIDA ?.Le FM doit placer les PVVIH au centre de la Lutte.Revoyons les Stratégies basées sur les PVVIH.

15:47:53 From SERGE DOUHAN : DOUAN SERGE de RIOF CI / 59 78 93 73/
douanzohsergeurbain@gmail.com,

15:49:09 From Sundar Sundararaman Dr. : we need a community and civil society audit of the CCM and its functioning. the LFA can be assigned to help this process. the accountability of CCM should be part of the funding model

15:49:24 From SERGE DOUHAN : vous avez également mad Kouadio : 07 56 86 09/ozouayvonne@gmail.com/ riofcotedivoire@gmail.com

15:50:59 From Indermohan Narula @ Mongolia : I fully agree with Sundar Sundaraman suggestion. It should be a key function of an LFA wherever this is necessary.

15:51:00 From Shyamala Nataraj : Would like to know how these discussions today will be minuted and used by the GF going forward

15:52:39 From TECNO SPARK 5 Air To Gemma Oberth(privately) : pour les communautés il aurait fallu que les acteurs sociaux apportent aussi leur contribution c'est le cas de la fédération internationale du travail social

15:53:03 From AMADOU CISSE : Au Sénégal les PVIH et les populations clés sont au coeur du dispositif du CCM. Rien ne se fait sans leurs accords.

15:53:21 From Gemma Oberth To TECNO SPARK 5 Air(privately) : Thank you for the intervention :)

15:53:25 From Ida Savadogo : @Charles nous vous suggérons de contacter la délégation des ONGs si vous avez un problème spécifique l.odendal@developingngo.org

15:53:45 From Koné NAZEHE - Côte d'Ivoire : Bonjour à tous, Nous participons sans être privilégiés malheureusement

15:56:42 From Deepanjali Sapkota : @Shymala CCM can definitely decide for this position. CCM Funding supports 2 staffs for now and CCM can definitely propose this

15:57:13 From AMADOU CISSE : du 16 au 20 novembre nous allons à un atelier de capitalisation du processus Dialogue Pays NFM3 SC

15:57:14 From Amal El Karouaoui : Thank you Isaac

15:57:43 From Benedicta : In order to ensure meaning engagement of CSOs- CSS is very Important. Voluntary spirit is there but cspcity building is very important. CCMs capacity as well as well have to be enhanced.

15:58:08 From CiSHAN Lagos : Well done Isaac Moses

15:58:16 From Amal El Karouaoui : Bravo everyone

15:58:25 From Ida Savadogo : @Amadou. Pourrions nous echanger après ce webinaire: cat@rame-int.org

15:58:33 From Gemma Oberth : Thank you all so much for the incredibly rich discussion here today.

15:58:42 From Gemma Oberth : I am so grateful for your time and your ideas

15:59:10 From Ida Savadogo : mot de cloture du responsable engagement communautaire de CRG

15:59:12 From TECNO SPARK 5 Air To Gemma Oberth(privately) : la sensibilisation et une vraie arme contre les pandémies. en RDC précisément à Kinshasa l'ONG avovig et regard sur la femme commence la sensibilisation dans les écoles de Kinshasa pour combattre coronavirus

15:59:24 From Linly Dumuka : Really, we need to put more technical and financial support for youth representatives within CCM and other structures for them to engage widely their youth constituencies. Thanks Isaac for raising such important points...

15:59:24 From AMADOU CISSE : avec plaisir. appeler à tout moment.

15:59:32 From Touady Roch Freddy : nous n'avons le retour de son. désolé Freddy Touady depuis le Congo Brazza

15:59:36 From Benedicta : Thank you Dr. Gemma

15:59:37 From Jorge Saavedra : A friendly call to some: Let's not insist to downplay the importance of Covid-19. We all agree that AIDS, TB and Malaria should remain priority number one for the GF, but that doesn't mean that other infectious diseases are less important, specially one that is already paralyzing the entire

world and making economies collapse, including the economies of the so called developed countries. Unfortunately in Mexico we learned the hard way by seeing our friends, relatives and loved ones dying in unprecedented levels. Public Health For All Needs to come as a global priority, let's not forget that AIDS was once declared a pandemic in times when many were trying to downplaying it, there are many lessons learned

- 16:00:05 From Belly BOSSIKY To Gemma Oberth(privately) : For talking about our experience toward HIV-TB programs
- 16:00:06 From Rehema Elikana : Thanks to everyone for great ideas, thanks Germa and others for good presentation
- 16:00:29 From Koné NAZEHE - Côte d'Ivoire : @Ida je reste en attente de retour pour le Groupe WhatsApp.
- 16:00:47 From SERGE DOUHAN : ok
- 16:00:52 From Koné NAZEHE - Côte d'Ivoire : Koné NAZEHE (CCM Côte d'Ivoire)
- 16:01:07 From SERGE DOUHAN : nous attendons tous le groupe whatsapp
- 16:01:08 From Mayson Qwasm : Thanks to everyone, thanks for good presentation to all
- 16:01:17 From Koné NAZEHE - Côte d'Ivoire : 225 89891060
- 16:01:28 From CRouah : Le groupe WhatsApp est une excellente idee : Bravo !
- 16:01:39 From Nazneen Akhter : Instead of taking away fund from GFATM for COVID 19 intervention , it should consider the reverse approach of redirecting the upcoming COVID fund a significant portion to GFATM grant. This will immensely support the ongoing disrupted HIV/TB /Malaria program gap, exacerbated vulnerability . On the other hand simultaneously to work on the prevention awareness & Vaccine aspect of the COVID to these same vulnerable community . Instead of vertical approach comprehensive thinking of disease dynamics are always in advantage Thanks , Dr Nazneen Akhter, Bangladesh
- 16:02:21 From Sundar Sundararaman Dr. : good one
- 16:02:42 From AMADOU CISSE : Bonne idée .Ida peut bien le creer
- 16:02:49 From Deepanjali Sapkota : Yes thankyou Gavin. We have an opportunity to bring some of the questions raised here as we all move into CCM Evolution implementation

16:03:05 From SERGE DOUHAN : ida créer le group stp

16:03:46 From SERGE DOUHAN : nous attendons ta confirmation Ida

16:03:46 From Ida Savadogo : mot de cloture de gavin: il est important d'investir dans les systèmes communautaires et d'avoir les systèmes de santé couverts par la communautaire de qualité. comment pouvez nous mieux travailler pour asseoir des modèles qui permettent un meilleur accès au service de santé des populations et accroître la participation des communautés dans les CCM. nous aimerons savoir comment vous souhaitez continuer la discussion. veuillez envoyer un message à Gemma et aux plateformes régionales pour donner vos suggestions pour la suite des discussions

16:03:48 From Amal El Karouaoui : Thank you Gemma

16:03:58 From Sundar Sundararaman Dr. : well done Gemma

16:03:59 From Amal El Karouaoui : Bravo

16:03:59 From Isaac Moses (#iCEDaSage) : Yet till date in Nigeria we still don't have AYP responsive data to inform dscision making and planning for AYPs. The reasons are still unclear despite the so much engagement with the CCM and the portfolio manager. Could it be that the GF do not prioritize the needs of young people in Nigeria in the reality of COVID-19 knowing fully well that AYP are the most affected? could it be that we have the wrong people representing us on the CCM or is the CCM playing into the politics of the Nigeria Government downplaying sensitive and priority needs of AYP in Nigeria. Why is Nigeria not involve in the global fund Her Voice project in Africa now
