

The Global Fund 2023-2028 Strategy Framework

Authors: **The Global Fund** / Date of publication: 22 July 2021

Summary:

The Strategic Framework, approved by the Global Fund Board in July 2021, will guide the Global Fund's partnership activities from 2023 to 2028 to meet its primary goal of **eliminating AIDS, tuberculosis and malaria and contribute to the achievement of SDGs targets.**

- **2023-2028 Strategy Vision is:** *A world free of the burden of AIDS, tuberculosis and malaria with better, equitable health for all.*
- **2023-2028 Strategy Mission is:** *To attract, leverage and invest additional resources to end the epidemics of HIV, tuberculosis and malaria, reduce health inequities and support attainment of the Sustainable Development Goals.*

The **main goal** has **four mutually reinforcing objectives**:

- **Maximizing People-centered Integrated Systems for Health to Deliver Impact, Resilience and Sustainability:** The Global Fund will strengthen RSSH by assisting nations and communities in order to accelerate sustainable HTM and broader health outcomes in support of UHC.
- **Maximizing the Engagement and Leadership of Most Affected Communities to Leave No One Behind:** The Global Fund will strengthen community leadership to achieve more impact and ensure the HTM response is responsive to and led by people living with and most affected by the three illnesses.
- **Maximizing Health Equity, Gender Equality and Human Rights:** The Global Fund will provide assistance to countries and communities in order to improve HTM results and promote more equal access to health care.
- **Mobilizing Increased Resources:** The Global Fund will collaborate throughout the partnership to increase the size, sustainability, efficiency, and effectiveness of health funding for national and community responses.

As well as an evolutionary goal of **Contribute to Pandemic Preparedness and Response (PRT)**, working collaboratively with actors across the global health architecture.

Finally, the Partnership Enablers will support catalytic investments, based on country-owned plans, linked with global technical goals and delivered via a strong, inclusive partnership models to optimize effect, equity, quality and sustainability, adapted to suit the local context.
