Somalia
Tajikistan

Full C19RM Funding Requests

Registrations (as of 22 July 2021)

Window 6 (17 September)

Multicountry HIV Latin America ALEP

After The Submission of the C19RM Request

What Next?

Get a Copy of the Notification Letter

Contact your CCM representatives and make sure you are aware of the outcome of the C19RM request review.

It is important that civil society and communities who were engaged in the C19RM request know the outcome of the review.

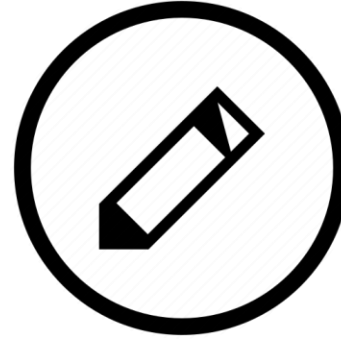

NB: Some Country Teams only send these letters to the CCM Secretariat, but other Country Teams copy the entire CCM.

Engage in the Grant Revision Process

Propose / offer your help or support for the grant revision process. Country Teams may ask the Principal Recipients and/or the CCM to involve communities in this process.

Ask your CCM representatives to follow-up on the grant revision, especially on the efficiencies identified (savings). If the Notification Letter approves \$10 million for interventions A, B and C, when the budgets are done, savings may be identified for B. It is important to know that because this is an opportunity to discuss what to do with the savings (and possibly funding above base activities from the C19RM request).

Remain Vigilant Until the C19RM Grant is Signed

Once the grant revision is done, the CCM needs to approve it before the amendment to the grant is signed officially.

Stay connected to the process until that happens, to make sure your inputs during Grant Revisions are approved by the CCM.

Request Support During Grant Implementation

If there are any needs for support, such as Technical Assistance (TA), make sure you plan ahead for this.

You can request C19RM TA from the Global Fund **immediately**, with a request cut-off date: **31 July 2021**

Implementation of C19RM TA and finalization of deliverables by **30 November 2021**

Reach out to APCASO/APCRG (The Regional Platform) for support applying for TA.

Thank You
